PROFESSIONAL SUMMARY

Results-oriented Full-Stack Web Developer with a strong foundation in building dynamic, high-performance web applications. Expertise in the modern JavaScript ecosystem (React.js, Vite) and scalable UI design using Tailwind CSS and Bootstrap. Proven ability to integrate secure backend infrastructure via Firebase and manage cloud assets efficiently through Cloudinary APIs. Committed to writing clean, maintainable code with strong version control (Git/GitHub) practices, ready to deliver high-impact engineering solutions at HCL.

CORE PROJECTS

Foundit

github.com/arpit6307/Foundit

REACT.JS • TAILWIND CSS • FIREBASE CORE • VERCEL

- Architected and deployed a highly interactive discovery platform with a mobile-first responsive UI layer.
- Integrated real-time Firestore database indexing to manage dynamic user states and data transitions with zero latency.
- Optimized rendering performance using precise Tailwind utility classes, significantly reducing CSS bundle size.

SecuraVest-Portfolio

github.com/arpit6307/SecuraVest-Portfolio

REACT.JS • VITE • BOOTSTRAP CSS • CLIENT STORAGE

- Developed a secure financial dashboard application calculating and visually representing complex portfolio metrics.
- Leveraged Vite bundler to establish an ultra-fast local development environment and highly optimized production builds.
- Structured modular, component-based layouts using Bootstrap to efficiently handle dense tabular data arrays.

Happinest-BioCore

github.com/arpit6307/Happinest-BioCore

FULL-STACK JS • CLOUDINARY APIS • GIT WORKFLOW

- Engineered a specialized web application to securely handle and parse complex user media and structural datasets.
- Integrated Cloudinary programmatic pipelines for instant formatting, caching, and secure media delivery.
- Maintained strict Git version control to manage concurrent feature additions and continuous deployment updates.

TECHNICAL SKILLS

FRONTEND

React.js

Vite

Tailwind CSS

Bootstrap

HTML5 / CSS3

JavaScript (ES6+)

BACKEND & CLOUD

Firebase DB

Firebase Auth

Cloudinary API

REST APIs

TOOLS & DEVOPS

Git

GitHub

VS Code

Vercel

EDUCATION

Diploma in Computer Science

Maharishi University of Information Technology

Completing in 20 Days (June 2026)

Secondary Education (10th)

National Institute of Open Schooling (NIOS)

Completed
